CONFLICT OF TESTIMONY FAILS TO ILLUMINATE MYSTERY OF THE SENSATIONAL NAVAL TRAGEDY

SUTTON SAID HE WOULD SUICIDE

That Is Story of Witness in the Celebrated Case Involving Cadets at Annapolis

LEUT. BEVAN GETS MIXED UP

Probe Still Working—Third day of Naval Inquiry—Who Fired the Fatal Shot?

(By Samuel M. Evans, Staff Correspondent of the United Press.)

ANNAPOLIS, Md., July 21.—That Lieutenant James N. Sutton, the circumstances of whose death are now being investigated by a court of inquiry at the naval academy, had threatened to commit suicide was one of the most important features brought out at the hearing today. Lieutenant Bevan, who began his testimony, swore that Sutton had told him some time previous to the mysterious tragedy that life had no attraction for him and that some day he would shoot himself.

Bevan furthermore expressed himself as positive that the shot that killed Sutton on the night of Oct. 13, 1907, was fired from a revolver from Sutton's own hand and that no one else was in contact with the weapon at the time.

Mrs. Sutton and Mrs. Parker, sister of the dead lieutenant, who are attempting to prove that he did not kill himself, stirred perceptibly at the statement of Bevan. The mother looked indignant and her daughter who sat open mouthed in surprise showing that it was the first time in her life that she had heard "Jimmie" Sutton accused of being tired of existence.

Next in interest in this development was the tangle of Bevan by the Sutton counsel in regard to the participants in the midnight camp fight and the probability developed that other persons whose names have heretofore been unmentioned would be shown to have been present. Bevan had said before that he ran through a crowd of men to get to Sutton's prostrate body but was unable to give any names. In his former testimony Bevan said that at the time he saw the flash that accompanied the fatal shot, Sutton's hands were both under him. Today and yesterday Bevan insisted that he saw Sutton stretch out a hand with a revolver in it before the shot was fired. In his former testimony he said he had never seen any revolver before. Willing took one away from Sutton, Bevan also admitted that he was and is now unable to identify the gun Willing took from Sutton's hand when he saw him in the tent or as the one introduced in the former or inquest. Asked to explain these discrepancies Bevan said:

"My memory may have been treacherous. The statement made at the former hearing was true and I thought it was true also."

It was learned today that Mrs. Sutton's lawyer will try to show that the revolver that killed Sutton was never identified by any one at all as Sutton's revolver and will try to prove that Sutton's service Colt was somewhere else on that night.

Problem is Unanswered
The main question bearing upon the mystery were still unanswered when the naval court met for its third session today. These are the questions to which the three witnesses examined thus far have failed to give satisfactory replies.

Who took the Smith & Wesson revolver from Lieutenant Sutton's hand and gave it to Sergeant Dehart? Was it given to Dehart before or after the fatal shot was fired? Was it a bullet from this weapon that killed the young officer?

Attorney Davis, for the Sutton family, tried to clear up these points in the examination of Lieutenant Bevan, who was on the stand when court convened today. It is expected the testimony of Dehart and of the surgeons who examined Sutton's body may throw light on the subject. It is also likely that Adams will be recalled in the story told by him and Lieutenant Osterman and Lieutenant Bevan regarding the incidents of the automobile ride and the subsequent fight with Sutton.

It seems pretty well established that Sutton had his revolver in his right hand and that it was taken (Continued on page 8.)

Mrs. Rose Sutton Parker, sister of Lieutenant Sutton, whose tragic death in Annapolis is now being investigated for the second time. It was Mrs. Parker who personally obtained the original evidence that brought about the opening of the government's inquiry. She sits opposite witness adverse to her brother and disconcerts them with her piercing scrutiny.

PRESIDENT TAFT WILL LIKELY COME

Congressman Esch Has Been After Him and He Has Agreed to Visit Twin Cities

It seems practically assured that President Taft will visit La Crosse this fall on his western trip. According to a dispatch from Washington the president has assured Congressman Esch that he will stop at St. Paul and Minneapolis, and that he will try his best to stop at La Crosse and Winona. The dispatch does not indicate there is any doubt whatever of the trip being made, and indicates that it is practically assured that La Crosse will be on his itinerary.

MR. TAFT MAY TAKE LESS THAN NOTHING

WASHINGTON, July 21.—It is learned the president has practically abandoned his efforts to secure free hides and is now working to get a reduction from the present rate of fifteen to five per cent. If he cannot get that he will take 7 1/2 per cent. This cut in the rate of hides, however, he wishes to be accompanied by a reduction in the duties on leather and boots and shoes, the latter to be about 10 per cent instead of 15 per cent as in the house bill and 20 per cent in the senate bill.

High Tariff Coterie
The republicans of the house who are fighting against the removal or reduction of the duty on raw materials held a meeting this afternoon for the purpose of framing up further arguments to be presented to the president.

CHICAGO CLEANS UP RESORTS SUPPRESSED

CHICAGO, July 21.—Graft, gambling, disorderly resorts, slot machines, and the illegal sale of liquor in dry territories surrounding Chicago were struck a hard blow today when the grand jury returned indictments affecting more than 300 persons. Fifty true bills were returned against proprietors of Chinese gambling houses and a like number against persons operating slot machines. The state's attorney is said to be preparing to prosecute police officials.

CHINESE AND KOREANS KILLED

MERIDA, Yucatan, July 21.—In a battle between Chinese and Korean in the Chinese quarter here more than 200 were wounded while 17 Chinese and nine Koreans are in a hospital severely wounded.

MANKATO CASE IS IN COURT TODAY

Alleged Slayers of H. J. Ledbetter Given Hearing and Smith Renounces His Confession

MANKATO, Minn., July 21.—The preliminary hearing of Mrs. Grace Ledbetter, Mr. and Mrs. William Schwandt, charged jointly with Frank Smith in the murder of H. J. Ledbetter on his farm near here May 4 last, began this morning and will undoubtedly occupy the entire day.

Smith, the hired man, was called for direct examination and told substantially the same story told at the coroner's inquest and previously to officers and newspaper men. He added one feature, however, that being that the body after burial in the barn began to smell, and Mrs. Ledbetter directed him to dig another hole in the barn and bury the body. Smith said he was so overcome with the sight of the dead man's face that he was unable to touch the body.

The cross-examination was very thorough and Smith frequently wiped the perspiration from his face. Smith in his testimony exonerated Schwandt completely from any hand in the murder.

His former confessions to the county attorney, Smith says, were false and that he was insane at the time he made them.

It is expected that the hearing will be concluded today.

AUTOMOBILE CLUB RUN TO WINONA

Unless the weather is unfavorable the members of the La Crosse Automobile club will make a club run to Winona next Sunday. In case of bad weather, however, the run will be postponed for a week.

Secretary Henry N. Boehm of the club has sent cards to all members of the club inviting them to join in the tour and he expects a large number of local automobilists to respond. Small cars will be given a handicap of one hour. They will leave the Stoddard hotel at 9 o'clock. Large cars will be held until 10 o'clock. The route chosen will be by way of La Crosse, by South Ridge to Ridgeway and Witoka.

Reservations for lunch will be made at Hotel Winona for as many as notify the secretary.

STORM IS DESTRUCTIVE

DULUTH, Minn., July 21.—Reports were received today from points in the Lake Superior region swept by last night's storm. Immense damage was caused and many buildings are reported damaged by lightning.

Half a million dollars damage is said to have been caused in Northern Wisconsin by a cloudburst.

A REPETITION OF GALVESTON FLOOD PROBABLY SAVED

Change of Wind Said to Have Rescued Texas City From Second Invasion of Relentless Sea

WATER IS OVER SEA WALL

Flood Driven by Gale Surmounts 17-Foot Dykes and Havoc Is Wrought by Great Flood

HOUSTON, Texas, July 21.—A fishing schooner swept by the force of a 60 mile wind from its mooring struck the bridge leading from Galveston to the mainland and swept away three sections leaving a pile of twisted wreckage and one clear gap, forty feet long. The same wind lashing the waters of the gulf to fury dashed huge waves against the great sea wall, over it, and into the city itself. In the streets in the western part of the city water is seven feet deep, several houses have been demolished by the force of the wind itself, two famous bathing pavilions have been wrecked, but as yet no loss of life has occurred.

Piers have been battered by the wind and several small craft in the harbor have been wrecked. The sea wall itself is partially wrecked but in the main has stood firm against the storm and kept back the waves that otherwise would have engulfed the city, re-enacting the tragedy of September, 1900, when after thirty hours of a similar wind, six thousand people were found to have been killed.

Only a shaky telephone service now connects Galveston with the outside. The telegraph wires which crossed the railroad bridge were cut down when the bridge was swept away. Two strands of telephone wire still lead into the island city.

All trains between Houston and Galveston have been annulled because of the storm. The last train left today before the storm and reached Houston safely. Shortly afterwards the wind swept across the city with the force of a hurricane.

Bridge Goes Down

Shortly afterwards the bridge went down and for a time communication was entirely cut off. It will be several days before railroad communication with Galveston is restored, railroad men declare. At present trains are being run as near the city as possible. Specials were sent out to pick up frightened summer resorters along the gulf coast.

Wall Saves the City

A heavy rain fell during the storm. The rain was general throughout southern Texas. It was first reported that the sea wall had gone down before the storm, but after the telephones began working this report was denied. Late reports indicate that the sea wall planned and built after the disaster of 1900 saved the city.

The solid mass of granite and cement seventeen feet high and nearly seven miles long stood against the flood and the only damage to it is reported to be superficial.

Waves Very High

In the lowest parts of the wall the water was forced over in great quantities. So high were the waves, however, that the crests broke over the wall and water poured into the city for a time, almost as though there had been no protection. The great jetties, stretching two miles into the gulf, also stood against the wind and are reported only slightly damaged.

Finishes Old Flood's Work

The railroad bridge which was wrecked today is the only bridge which was not entirely destroyed during the storm of 1900. At that time there were three railroad bridges from the mainland to the island. Two of them were swept away and the third that belonged to the Gulf, Colorado and Santa Fe, was badly wrecked. It was repaired after ten days and was the only means of communication. The giant wagon bridge over the bay was also swept out in the storm of 1900.

The barometer during the storm went down to 29.34, and the gale reached 6 miles an hour. At 2:00 o'clock, however, the wind had changed and was blowing to the south, thus forcing back the waters that were pouring into the city. This wind will probably prevent any more water from entering the town and thus stop any further damage.

INFANT IS BURIED

The infant daughter of Mr. and Mrs. Anton Michel, of 2310 South Fourteenth street, was interred yesterday. The funeral was held in the afternoon at 2:30 o'clock in the Oak Grove cemetery. Mrs. Theodore Mannstedt in charge.

CANTON MYSTERY STILL A MYSTERY

Rev. Jones Says Report of Bishop Cotter's Probe Has Been Altered Since His Death

WIERD IMAGES UNEXPLAINED

Pastor Says Polarization and Gaseous Smoke Theories Do Not Explain Phenomena

The Canton church window mystery is still unsolved, and traders of the truth who have made efforts to ridicule the phenomena which has drawn hundreds of pilgrims to the little nearby Minnesota town in quest of relief from suffering have been unable to throw a ray of light upon the singular appearance in the windows of the church there of wierd images and forms.

Rev. Daniel Jones of Canton, Minn., writing to the Tribune says that since the death of Bishop Cotter of Winona enemies of the window mystery have garbled reports of the investigation made by Bishop Cotter during his life, saying that he found that the phenomena was caused by rainbow effect. This Rev. Jones denies. He says that the report of Bishop Cotter stated that the best information obtainable at the time of his investigations tended to show that the phenomena was probably due to a process of polarization or the unpreventable introduction of a gaseous blue smoke in cheap grades of window glass during its manufacture.

"This," said Bishop Cotter, "can scarcely be held as affording sufficient explanation of the unique face forms in the first window, nor of the singular coincidence of more strongly defined face forms found in the second glass."

Rev. Jones severely criticises newspapers of the vicinity who have discredited the window mystery and who have, he says, garbled the report of the affair made some time ago by the bishop.

ATTORNEY GETS A JUDGMENT OF \$300

Attorney Olaf R. Skaar of this city, who yesterday sued his client, Mrs. Ella M. Waite of West Salem, for fees and expenses while investigating her timber land claims in Oregon, was awarded compensation by a jury in circuit court last night in the sum of \$300. The jury was out but a short time.

Last fall Mr. Skaar had occasion to go to Tacoma, Wash., on another matter and was at the same time commissioned to look into the titles of some land held by Mrs. Waite. It was agreed at the time between the attorney and Mrs. Waite, that in case he found the titles irregular he should straighten them out if possible. For this he was to receive a reasonable fee, the stipulation being made, however, that if he was unable to hold up any of the claims he would receive no other compensation than his actual necessary expenses.

Mr. Skaar spent eleven days in the work and his railway fare and hotel bills were presented to Mrs. Waite, together with his bill for attorney's fees. Payment was refused on the ground that he had found the titles irregular and the ground transferred to her by her brother, Horace McKinley, hopelessly lost. McKinley's original title being worthless. Mr. Skaar did however fix up the titles to a tract of 10 acres and secured estimates as to the value of the timber on the land.

Hiram Goddard of this city, on the stand yesterday, placed a value on this timber of from \$4,000 to \$5,000. Attorney William F. Wolfe appeared for the plaintiff, and Attorneys Waite of Woodstock, Ill., and E. C. Joslyn of Chicago appeared for the defendant.

NARROW ESCAPE IN AFRICAN HUNT

Seeks Hippopotami—Faces a School of Them—Boatmen in Panic

COL. ROOSEVELT KILLS TWO

This Saved the Day and the Frightened Natives Were Calmed Down

(By Warrington Dawson, Staff Correspondent of the United Press.)

SAIGOSOI CAMP, bp Horse Messenger to Naivasha, B. E. A., July 21.—Colonel Roosevelt has had many narrow escapes since he began hunting in Africa, but the experiences he went through yesterday (Tuesday) were so full of thrilling incidents that his life was constantly in danger. That he is alive today is due to his coolness and wonderful marksmanship. Tuesday morning at 9 o'clock, accompanied only by two negro porters to row his small boat, he started out on Lake Naivasha to seek a calf hippopotamus, which he is lacking for his collection.

He had reached an isolated part of the lake far away from his camp when a school of twelve hippopotami surrounded his craft threatening every moment to upset and spill the ex-president, and his porters into the lake, where they would have met instant death. Several literally hurled themselves against the sides of the little row boat while two or three dived deep into the waters of the lake and came up under the boat, striking it with their backs in order to overturn it.

Natives in Panic

The native boatmen were in a terrible panic and their own actions added to the impact of the heavy bodies against the boat threatened at every moment to overturn the boat. Shouting to his rowers to sit still, a warning which they were too frightened to heed, Col. Roosevelt seized his heavy express rifle and killed a magnificent cow hippopotamus with one shot. With the next shot he killed a bull hippopotamus, the finest killed in this vicinity in years. The other monsters took fright and fled.

It was some time before Col. Roosevelt could calm down his frightened rowers sufficiently to make them row his boat alongside the dead animals, which were floating in the water.

Camp Much Alarmed

Col. Roosevelt had been gone so long that his party in camp here had grown alarmed and had put out in a launch to search for him. There was much anxiety in the camp as the hours sped by and neither Col. Roosevelt nor the searching launch was found or heard from until 3 o'clock this morning, when the launch arrived in camp towing the carcasses.

HARRIMAN WORKS DESPITE DOCTORS

VIENNA, July 21.—Despite his physicians' warnings that only a complete relaxation from business cares will bring complete recovery, E. H. Harriman is still transacting immense stock market deals by cable from the watering place at Bad Gastein where he has been ordered by the specialists to take the "cure."

HORSE RUN DOWN BY AN AUTO TODAY

A delivery horse owned by A. W. Rennebohm and driven by Carl Schaffer, was struck by an automobile at the corner of Third and State streets at 2:30 this afternoon. The animal was slightly cut up and the shafts of the wagon broken. No one was injured and the damage was small. The auto belonged to the La Crosse Plow company.

TARDY HONORS REACH HERO

ANN ARBOR, Mich., July 21.—In October, 1864, Major General Meade recommended to congress that Joseph Kemp of this city be rewarded with a medal of honor for conspicuous bravery on the Wilderness battlefield May 6, 1864. When a mere lad of twenty, Kemp dashed into the confederate ranks and captured the flag of the Thirty-first North Carolina. Today Kemp received the medal from Adjutant General C. W. McClure.

WALTER B. ROSE IS AFTER BIG SMOKE AT ISLE LA PLUME

Acting Mayor Seizes Barge and Will Tow Fire Engine Down River to Scene of Fire

IS AN EARLY MORNING JOB

Will Start Down Stream at 3 O'clock and Begin Work at 7 O'Clock—3 Days' Work Ahead

Even if "The smoke goes up the chimney just the same," Isle La Plume is to be subjugated, squelched, drenched.

Today Acting Mayor Walter B. Rose announced that he had secured the services of a barge for the purpose, and that a force from the fire department will begin playing upon the island at 7 o'clock tomorrow morning, a city fire engine being the battery, a city is to conquer the demon of smoke which has harassed the public for weeks.

The work is being gone at vigorously by the acting mayor. He expects to have the department at work towing the barge to the island at 3 o'clock in the morning, and to begin the fire fighting at 7 o'clock. He says it will require three days' hard work to put the fire out, but that no effort will be spared to accomplish that end.

The success of Mr. Rose in securing the means with which to fight the fire affords welcome relief from a trying situation, as prior to his absence which is occasioned by his attendance upon the meeting of the Municipal League, Mayor Sorensen had found it impossible to secure a barge for the purpose.

Wolford's desire to emulate several noted aviators in the sixth inning of the game yesterday won for the Cream Puffs. The local lad went out of sight, into the ozone, and when he came to earth again, Eau Claire had 5 hits which netted them the same number of runs, placing them two scores to the good, which re-enforced by another score in the next inning clinched a victory for them. Worman tightened up after the second inning and at no time did the locals have a chance to score enough counts to win.

Wolford was taken out after the sixth and Ritter, the new hurler, mounted the hill and allowed but three hits in the remaining rounds of the fiasco. He was a trifle wild, however, hitting two men.

Roy Klein was given a rest because of a sore wing and his position at the receiving end of the battery was occupied by Wais, the catcher for the local Athletics. He played a good game, getting one run and a two bagger.

Kick opened the game by flying out to Malloy and Schoonhoven succeeded in getting a free pass. Benrud slammed out a dandy double which scored Schoonhoven. Bailey was out, Kraher to Letcher, and Wallace struck out.

Malloy hit to center for a single and was sacrificed to second by Wilhelm. Little Eddie Kline got his third three bagger of this series, polling out a long hit to the left field fence, which scored Malloy. Eddie scored on a passed ball. "Uncle Tom" Letcher got a donation to first and died stealing second. Safford flied out to Wallace.

Caldwell, Kading and Nieman went out in one two three order.

Schriner was out Worman to Kading. Kraher got a base on balls and Wais was safe on first on an error by the pitcher. Worman threw the ball to center field. Wais went to second and Kraher to third. Wolford got a free pass and Malloy struck out. Wilhelm hit safely to center, scoring Kraher and Wais, with the last two runs for the Outcasts.

The next scoring came in the aerial sixth, when Wolford took to the sky and refused to come down until Eau Claire had won the game. Schoonhoven who was first up, got a hit to left field and Benrud walked. Bailey hit for two bases scoring Schoonhoven and Benrud. Wallace hit to Letcher who threw to third but both of the visitors were safe. Caldwell struck out and Kading nipped to center scoring Bailey and Wallace. Nieman hit to center and Worman was safe on an error by Wilhelm. "Rabbit" Kick struck out and Schoonhoven got his second hit of the inning in left field, scoring Kading. Malloy returned the ball to Wais who exterminated Nieman as he slid home.

In the next round of the game, which was disgusting the fans, Benrud who had gotten to first on an error by Schriner at third, was sacrificed to second, stole third and scored on a passed ball by Wais.

In the remaining innings Worman was invincible and the Outcasts were unable to get a man past first base. The score:

The Chicago Americans won their third consecutive game from Washington, 6 to 1. White was in good form.

Boston defeated Cleveland 4 to 0. Wood was effective with men on bases, and was backed up by sensational fielding. Errors gave Boston three of its four runs.

Yesterday's game was tossed off by Detroit in the seventh, when New York scored three runs without a hit, or error. With two out, Donovan issued three passes, forcing in a man. Two errors followed, scoring two more. All of New York's runs were made with two out. New York's misplays saved the Detroit team from a shutout.

The St. Louis batters could not solve Morgan's delivery, and Philadelphia won, 2 to 0. Capt. Davis hit another long home run in the seventh inning, the ball clearing the left field bleacher fence.

The New York Nationals' chances for the league pennant received a serious setback yesterday afternoon, when, in the seventh inning of the game, with St. Louis, Christy Mathewson, the team's star pitcher, had the second finger of his left hand broken in stopping a liner from Delehanty's bat. Mathewson has been New York's one consistent winner this season and has not been defeated since May 24.

Mathewson left the game immediately and the surgeon who attended him reported that it won't be at least two weeks before he could pitch again. Manager McGraw was banking heavily on Mathewson in series with Chicago starting Thursday.

Doubles by Phelps and Evans, the latter a former member of the New York team, gave St. Louis an eleven inning game. Crandall took Mathewson's place on the rubber in the seventh inning. Outside of the sixth inning Salles pitched cleverly. Pittsburg was shut out by Philadelphia, 3 to 0, through the excellent twirling of Corridon and his good support. Not a Pittsburg player reached second base.

Egan's hit in the seventh with two men on bases gave Cincinnati the victory over Boston, the final score being 2 to 1. Boston rallied in the ninth, but Stem hit an easy grounder to Mowrey with the bases full and two out, and the game ended. Graham's playing was a feature.

An error by McIlveen gave Chicago a chance to rally and tie the score with Brooklyn, but he redeemed himself with a timely single that brought Clement across with the winning run. McIlveen really started at the bat, bringing home two runs in the seventh with a four bagger, and figuring in the batting rally in the third. McMillan's brilliant fielding was the feature.

WAIVERS ASKED N JACK CHESBRO

NEW YORK, July 21.—"Jack" Chesbro has gone the way of the stars of former days. The man who made the "spitball" famous is not good enough even for the New York Americans. A report has reached here from Detroit that Manager Stallings has asked waivers on Chesbro.

Not that Stallings is lacking in appreciation of the great work Chesbro has done in former days; it is simply that Chesbro's days of usefulness are over. It is hardly likely that Chesbro will have to go back to the minors, for he is rich.

TENNIS EXPERTS AT ONTWENTSIA

CHICAGO, July 21.—Some of the foremost tennis experts of the country will compete in the second annual western championship tournament which begins at the Ontwentsia club next Saturday.

The chief feature of the event will be the elimination series in doubles for the selection of a team to go to Newport and contest with Hackett and Alexander for the national championship. The contestants will in this series be the winners of the eastern, southern, middle and far western championships.

KONEY OUTSHINES FORMER HITTING

Eddie Konechky is swatting the ball better than ever since his debut in the National league, his percentage at the present time being .268. He has been at bat 276 times, has scored 42 runs, has made 74 hits, of which 11 were doubles, 8 triples and 2 home runs, and 5 sacrifice hits. In fielding the lanky first sacker has 800 put outs, 40 assists and 16 errors, giving him a percentage of .981. He has a record of 17 stolen bases. Eddie ranks fourth of the regular players in batting and third in fielding.

"BAT" TO BOX FOR THE NEWSBOYS

CHICAGO, July 21.—Battling Nelson left Chicago today for New York where he will appear in a boxing exhibition for the benefit of the New York newsboys. The lightweight champion looked in the best of shape and had nothing but commendatory remarks to make about Ad Wolgast, whom he recently met in Los Angeles.

SWEDISH SINGERS MEET.

CHICAGO, July 21.—A special from Stockholm says: All the societies of Sweden have gathered here and are giving a series of recitals and national songs. The male choruses are unexcelled and under the leadership of Crown Prince Gustaf Adolf intense patriotic fervor has been aroused. The Swedish National Singing club has been organized to meet annually. The next assembly

is believed will bring together about 3,000 voices. This project is looked upon as a means of stimulating and cultivating national culture and patriotic spirit.

HANDS AND FEET ITCHED 12 YEARS

Suffered Terribly from Eczema which Made Hands and Feet Swell, Peel and Get Raw—Arms Affected, Too—Gave Up Hope of Cure.

USED CUTICURA AND WAS QUICKLY CURED

"I suffered from eczema on my hands, arms and feet for about twelve years, my hands and feet would swell, sweat and itch, then would become callous and get very dry, then peel off and get raw. I tried most every kind of cure, but nothing would do me any good, only got temporary relief. I was so bad as ever. I tried several doctors, took arsenic for two years and at last gave up thinking there was a cure for my eczema. A friend of mine insisted on my trying the Cuticura Remedies, and I tried them. I had tried I think a trial until I got so bad that I had to do something. I secured a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and by the time they were used I could see a vast improvement and my hands and feet were healed up in no time. I used several bottles of Cuticura Resolvent. This was over a year ago and have had no trouble since. Charles T. Bauer, R.F.D. 65, Volant, Pa., Mar. 11, 1908."

THE SHORT BALLOT

An article by Richard S. Childs
entitled, "The Short Ballot Idea,"
appearing in the current number of
"The Outlook," is bound to attract
wide public attention. It lays the ten-
dency to bad government in this
country to the long ballot, with its
multiplicity of candidates, and it
makes out a good case. It contends
that we vote intelligently on major
officials, but that we vote for subor-
dinate officers of whom we know
nothing, thus placing ourselves at
the mercy of political machines in-
strumental in naming them or pow-
erful to control them where weak
men are selected. Mr. Childs' posi-
tion is that we should concentrate
our elections on fewer men named for
high positions, and that intelligent
appointment on a business basis
should succeed elections on the sub-
ordinate officials. He intimates that
the commission form of govern-
ment as now established tends in the
right direction, but adds that even
this method could be improved upon.
Mr. Childs points out that in
America alone does the long and
complicated ballot obtain. He says:

By the way, every factor in this
sequence is a unique American phe-
nomenon! The long ballot with its
variegated list of trivial offices is
to be seen nowhere but in the United
States. The English ballot never cov-
ers more than three offices, usually
more than one, in Canada the ballot is
less only one. In Canada the ballot is
commonly limited to a single office,
but the number is never large, and
includes only offices that are of such
importance as to attract closer scrutiny
by the public. To any Englishman
or Canadian our long ballot is
astounding and our blind voting ap-
palling. The politicians as a profes-
sional class, separate from popular
leaders or office-holders, are un-
known in other lands, and the very
word "politician" has a special mean-
ing of reproach in this country which
foreigners do not attach to it. And
government of a democracy from be-
hind the scenes by politicians, in en-
dless opposition to government by
public opinion, is the final unique
American phenomenon in the long
ballot's train of consequences.

Mr. Childs is not a pessimist. He
believes in the intelligence and hon-
esty of the American elector. He
merely suggests that it is in relation
to men and measures of which he
knows nothing that the voter falls
into error, and he sees the impos-
sibility of voters being fully informed
as to the character of a score of men

with whom he has had no opportunity
to become intimate. As to main is-
sues and principal candidates, he
avers, the voter cannot be misled.
"The blind vote," he says, "of course
does not take in the whole ballot.
Certain conspicuous offices engage
the attention of all of us. We go to
hear the speeches of the candidates
for conspicuous offices; those speech-
es are printed in the daily papers and
reviewed in the weeklies; the candi-
dates are the theme of editorials, and
we need take no part in politics to
be able to vote with knowledge on
certain important issues. We would
laugh at an attempt to control our
vote on any of these questions
where we have opinions of our own.
With this independent intelligence
always at work upon the major nomi-
nations, we secure a fairly normal
level of conditions. Aldermen we
elect who do not represent us, and
state legislatures which obey the in-
fluences of unseen powers, but we
are apt to speak effectively when it
comes to the choice of a conspicu-
ous officer like a president, a govern-
or, or a mayor. For mayor, governor
or president we are sure to secure a
presentable figure, always honest
and frequently an able and independ-
ent champion of the people against
the very political interests that nomi-
nated him. We are apt to re-elect
such men, and the way we sweep
aside hostile politicians where the
issue is clear shows how powerfully
the tide of our American spirit sets
toward good government when the
intelligence of the community finds
a channel—witness Roosevelt, Taft,
Hughes, Deneen, La Follette, Folk,
and a host of mayors."

Here, truly, is an argument worthy
of careful analysis. If every voter in
La Crosse were asked to give his rea-
sons for voting for each man who
got his support in a public election,
he would have to admit that his in-
formation was insufficient to serve
as a basis of intelligent selection.
We doubt if there is a voter in La
Crosse who could today take up a
ballot used in the last election and
intelligently discuss twenty per cent
of the candidates named upon it. It
may be unwise to jump at conclusions,
but Mr. Childs' discussion is
entitled to a serious hearing.

REQUIRES OFFICIAL ACTION

The allegation has been made by
certain local contractors that a cer-
tain contract for street work into
which they entered with the city is
being held up because of their in-
ability to get stone required in the
work. A story to this effect was pub-
lished in The Tribune, and called
from J. M. McDonough, secretary of
the La Crosse Stone company, a de-
nial coupled with the accusation that
the contractors were jockeying in an
attempt to make better prices on
crushed stone than are current.

The Tribune has no means of judg-
ing who is right in this controversy,
but it is a proper matter for the city
officials to investigate and determine.
If the public convenience is suffering
because of delay in street construc-
tion, it would seem to be the duty
of the proper authorities to take ac-
tion. As between the contractors and
the stone company, the people of La
Crosse are not interested, but the re-
sulting delay in public works is of
concern to citizens, and any loss or
inconvenience resulting from such
delay should be eliminated.

NEEDFUL KNOWLEDGE

La Crosse People Should Learn to
Detect the Approach of Kidney
Disease.

The symptoms of kidney trouble
are so unmistakable that they leave
no ground for doubt. Sick kidneys
excrete a thick, cloudy, offensive
urine, full of sediment, irregular of
passage or attended by a sensation
of scalding. The back aches con-
stantly, headaches and dizzy spells
may occur and the victim is often
weighed down by a feeling of lan-
guor and fatigue. Neglect these
warnings and there is danger of
dropsy, Bright's Disease, or dia-
betes. Any one of these symptoms
is warning enough to begin treating
the kidneys at once. Delay often
proves fatal.

You can use no better remedy
than Doan's Kidney Pills. Here's
La Crosse proof:
Mrs. H. Hermanson, 1125 S.
Third St., La Crosse, Wis., says:
"My husband and I both appreciate
the great curative powers of Doan's
Kidney Pills. A box of this remedy
procured at Erhart's drug store,
brought me almost instant relief
from backache and other symptoms
of kidney complaint. My husband
used Doan's Kidney Pills some years
ago and the results were entirely
satisfactory."
For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,

Excelsior.
The shades of night were falling fast
When home the lampshade came at
last.
Which I had bought that very day
In town, packed in a sort of hay—
Excelsior.

I bore the package to my room
For how could I foresee my doom?
I pushed the desk and table back
And slowly started to unpack
Excelsior.

I burrowed deep, and downward dug,
Until I'd covered all my rug.
I spread it then upon the floor,
But still I pulled out more and more
Excelsior.

"It cannot be," I said at last.
"That in my haste the shade I've
passed."
But though the lampshade I may
miss,
I knew I never ordered this
Excelsior.

Then it began to fill the air,
The desk, the table—everywhere.
It reached the ceiling, blocked the
door,
And yet there still remained some
more
Excelsior.

Next morning I, of course, was
missed,
And with the shade clasped in my
fist,
With hay below and hay above,
They found me in a mountain of
Excelsior.

A Regretted Success.

Massachusetts has furnished some
attorneys who have become famous
legal lights before the nation. The
town of Suffolk, in that state, has
one at present who bids for a place
among them. This lawyer is noted
for the brightness and aptness of his
retorts, and any smart witness that
gets ahead of him has to sit up
nights to frame up the plot.

He was recently counsel for the
plaintiff in a case where a woman
was very refractory under cross-
examination. Although he used all
politeness and courtesy in his exami-
nation, he received nothing but
sharp and unsatisfactory replies.
Her husband was in court, a meek
and humble specimen of the hen-
pecked spouse. Finally the lawyer
put another very civil question to
which the woman replied with vin-
dictive fire flushing from her eyes:
"Mr. Lawyer, you can't catch me,
and you needn't think you can; no,
siree, you can't catch me!"

With his most fetching smile, the
attorney replied:
"Madam, I haven't the slightest
desire to catch you, and your hus-
band looks to me as if he very sorely
regretted that he had succeeded."

The crier rapped for order as a
wave of laughter swept over the
courtroom, and the judge bowed his
head to hide a smile.—N. Y. Times.

SHERIFF FINDS
VICTOR'S REVOLVER

ABERDEEN, S. D., July 21.—An-
other link in the chain of evidence
against Emil Victor has been forged
by the sheriff and State's Attorney
Van Slyke by the discovery, at a
point near Mellette, where Victor is
said to have told a fellow prisoner
they would be found, of two revolv-
ers, one a 41 calibre and the other
a 38. The shooting at the Christie
farm July 3, was done with a 41 cal-
ibre revolver, and Christie was known
to possess a 38 calibre revolver. A
farmer has also been found who saw
Victor along the railroad track, a
mile east of the Christie farm, the
evening of July 2, less than twelve
hours prior to the murder.

The state's attorney will prefer
four separate charges against Vic-
tor, making of each killing a sepa-
rate murder charge instead of put-
ting them all under one head.
The preliminary trial of Victor was
set for today, but it will be postponed
in order to give his relatives an
opportunity to reach here.

PRISONER AND GUARD
DESERT SNELLING

MINNEAPOLIS, Minn., July 21.—
Searching parties are scouring the
country in the vicinity of Fort Snell-
ing for Fred Burkette, unassigned
recruit, a prisoner at Fort Snelling,
and his guard, Private Strickland, of
Company A, Twenty-eighth infantry,
who disappeared from the reserva-
tion some time between 1 and 5
o'clock last Saturday afternoon.

The last seen of the prisoner and
his guard was shortly before 1
o'clock Saturday afternoon, at which
time they were in the vicinity of the
guard house. Burkette had been
given a light sentence for some mi-
nor offense and was shackled with
a chain about the waist and down
the front which divided into two
chains near the feet and these were
fastened around the ankles. These
anklets could only be unlocked by a
key and the chain would not allow
the prisoner to go faster than a
walk.

Strickland, the guard, was armed
with an army rifle and ball cartridge,
and this places the fugitives in a
position to defend themselves should
they be surrounded.

TWO WRECKS RESULT

CROOKSTON, Minn., July 21.—
A terrific storm in eastern Polk
and Norman counties has demoralized
railroad traffic on the Great North-
ern, Northern Pacific and Soo, caus-
ing two bad wrecks, and the loss of
two lives.

Owing to the terrific downpour
Northern Pacific northbound freight
train crashed into the rear of a
work train at Melville, killing

LIVE WIRES

Arthur Mulholland, the \$100,000
Cop

To give up a life of luxury and
ease for an ambition is what Arthur
Mulholland of Philadelphia has done.
Mulholland, who inherited a fortune
of \$100,000, from which his income
is about \$200 monthly, has taken
a job on the police force at \$2.25
a day in order that he might realize
his ambition to become a great detec-
tive. His one controlling desire in
the world is to ferret out crime, and
in order to begin at the bottom he
has started in as a member of the
city's force.

Mulholland is 28 years old and is
at present connected with the
twentieth police district. He inherited
the money from his parents. For a
time he endeavored to study detec-
tive work by associating with some
of the best sleuths of the city's force,
all of whom are his friends and be-
lieve he will one day make his mark
as a detective. He found, however,
that the city's sleuths gained their
first knowledge by patrolling a beat
in uniform and he concluded he could
best help himself by serving such an
apprenticeship. After receiving his
appointment and passing the civil
service examination he started to
work in earnest and is making good
as a policeman.

Some months before Mr. Mulhol-
land joined the force he disposed of
a magnificent yacht and an automo-
bile, and gave up all such luxuries.
He is very well educated and a plan-
et of note.

CUTS WIFE'S THROAT
THEN HIS OWN

MINNEAPOLIS, Minn., July 21.—
Crazed by a week's wild debauch,
Emil Sarlund, 30 years old, a shoe-
maker, yesterday morning cut his
wife's throat and then his own with
a razor.

Both are now in the city hospital,
where it is said the woman may die.
At the time of the cutting, neigh-
bors heard screams from the little
Western avenue shop, and a moment
later they saw Mr. Sarlund running
across the street and trying to
staunch the flow of blood with a
newspaper.

caught from a box of charcoal and
had been smouldering for some
hours. It was extinguished but the
building is considerably damaged.

CHINESE GAMBLERS GRAFTED.

CHICAGO, July 21.—Tending to
show a collection of graft money
from Chinese gamblers was un-
earthed by State's Attorney Wayman
with the arrest of Li King, a Chi-
nese. In his possession was found
\$203, the sum of his alleged collec-
tion, and a sheet containing a list
of names of Chinese gambling houses
which are said to have paid tribute
for the privilege of being allowed to
operate.

King was taken to the criminal
court building, interrogated and
made a partial confession. He said
he was making the collection for an-

arrested within 24 hours, it was

COMPLETE NEWS OF THE NORTH SIDE TODAY

BURLINGTON HAS PLENTY OF HANDS

Do Not Experience Trouble of Other Roads in Securing Men For Section Work

BUILD NEW 900 FT. SIDING

New Schedule Provides For Passing of Trains Here and Tracks are of the Heaviest Type

The Burlington road, unlike the other local railway divisions here, is experiencing no difficulty in keeping up a full section crew, there being at the present time enough men at work to keep up the annual improvements of the road at this point. A full section crew numbering over 20 is now laying the heavy steel tracks between the North and South sides of the city. At the present time the men are working in the vicinity of the causeway, north of the La Crosse river bridge.

The company here is making extensive improvements this year, the most important of which perhaps is the building of a new sidetrack at Grand Crossing. The schedule at the present time requires that some of the trains pass at this point of the system and in order to maintain the schedule with the greatest expediency, it was decided that a new track should be built. The work will be of the best, the road bed being gravel ballasted and the very best and heaviest steel that can be procured is being used. The addition will be about 900 feet in length when finished.

The other roads here as in other parts of the state are experiencing great difficulty in securing enough section men to carry out the necessary track work. All that the roads can do is to keep the track and the road beds in good running condition.

The Milwaukee here is seriously affected by the condition of affairs, probably more so than any of the other roads, but it is understood that they will make a desperate effort to secure section men without making any increase in the daily wage of \$1.40, which the men claim is insufficient for a family to live on.

HOLWAY DOCK ALSO STARTS TO BURN

The old Holway dock, which is built of lumber fillings and chips, started to burn yesterday about noon and after securing noticeable headway, an alarm was turned in and responded to by station No. 2 about 2 o'clock. The department after working on the dock for about half an hour had the blaze completely extinguished.

The origin of the fire is unknown but it is thought that it was started by tramps or boys.

KIRCHEIS ELATED OVER BIG SCORE

Third Regiment Does Remarkable Shooting at Camp Douglas—Extended Order Drill

CAMP DOUGLAS, Wis., July 21.—The Third and Tenth battalions shot yesterday under conditions a great deal more unfavorable than were those which Monday's battalions met, but they did well. In consequence the rifle class of the Third regiment is made up of forty-three men aside from distinguished marksmen who made better than 120. This is a remarkable score and Col. Kirchels is much elated over the work of his men.

The Tenth battalion shot particularly well, five men, besides the distinguished marksmen, making the necessary 120. Undoubtedly the number would have been greatly increased had it not been for the strong wind and varying light.

Scores of the Marksmen
The men of the Third battalion, Third regiment, who qualified to shoot on the long ranges on Wednesday are:

Score.	Company
125	Lieut. Ryan, Company C.
125	Sergeant Schroetes, Company H.
124	Sergeant Renman, Company C.
122	Capt. Swan, company H.
122	Artificer Walker, company C.
121	Lieut. Hanson, company I.
121	Sergeant Clemens, company I.
120	Corporal Olson, company E.
120	Private Johnson, company I.

As men who made 117 in the Second regiment were allowed to shoot in the rifle class the same minimum will be taken this year by the Third. Sixty-five men will shoot for places on the team. Those of the Tenth separate battalion who constituted the rifle class are as follows:

Score.	Company
125	Musician Wischoff
124	Sergeant Benson
123	Sergeant Mattison
122	Private Field
121	Corporal Hudson

The collective firing of the Third and Tenth battalions make a good average, though the maximum is not so great as those of Tuesday. Company A of Neillsville is the banner company for this year in the shooting department of the state guard. The volleys of the two battalions which shot on Tuesday are as follows:

Third Battalion	Company	Score
Company H	285
Company C	324
Company I	343
Company E	312
Tenth Battalion	Company	Score
Company A	294
Company B	280
Company D	337
Company C	229

Have Extended Order Drill

Extended order drill was the program for the afternoon and a hard hour and a half was passed by the men on the parade ground advancing as skirmishers, lying down and firing and advancing again. The work was done as preparation for the use of the ball cartridges in executing the same movement on Wednesday

OVERTHROW THE FRENCH PREMIER

Government Is Defeated and Crisis Is on—Clemenceau's Successor—Czar Visits Paris

PARIS, July 21.—Following an acrimonious debate in which Premier Clemenceau clashed bitterly with M. Delcasse over the government's fight to reform the naval department, concerning which scandals have arisen, the government was defeated last night by a vote of 212 to 176. Clemenceau and the entire cabinet then resigned, and President Fallieres accepted the resignations.

Despite the coming visit of the czar of Russia, it is scarcely believed President Fallieres will succeed in choosing a new premier today. Shortly before noon President Fallieres held a fifteen minute conference with Clemenceau and later received the president of the senate and chamber and Minister of Finance M. Briand, who is being prominently mentioned today as the man most likely to be called on to head the new ministry.

Despite the popular clamor in favor of M. Delcasse, Clemenceau's successful enemy, it is not considered likely he will be named to head the new cabinet owing to Germany's strong opposition to him and the great desire of the French government to make no move likely to displease the kaiser.

It is the general belief today that M. Cruppi, minister of commerce; M. Pichon, minister of foreign affairs and M. Picard, minister of marine, will be called upon to accept their old portfolios in the new cabinet.

with ball cartridges. Thirty-two men will be in line, each armed with 20 rounds of ammunition. Each company will execute the attack singly, the order being determined by lot. As there are sixteen companies to go over the range, each occupying half an hour, it will take good part of the day to finish this maneuver.

The preparations are complete for the reception of the governor today and the camp ground will be filled with visitors at parade time if the weather is fine. Governor Davidson will be saluted with seventeen guns when he approaches the camp and all due honors will be given him as commander in chief of the guard of Wisconsin.

MAYOR ROSE NOT ONLY MILWAUKEE'S

It's Mayor Rose this morning. Nor is he in Milwaukee. Mayor Sorensen left today for Marinette with the other delegates to the Wisconsin League of Municipalities, and his honor delegates Alderman Rose may or protest until his return. Mayor Rose does not expect to build a public auditorium, a new public bath, or pumping station during the four-day absence of the mayor, but will endeavor to keep Joe Slegler working and the bridge passes in good order, at least.

ANOTHER CHICAGO BOMB EXPLOSION

CHICAGO, July 21.—While the police are attempting to locate the guilty parties connected with the recent bomb explosions, No. 32 was exploded at the grocery store of Tony

Mrs. P. H. Magruder and children are visiting relatives at Lawler.

BANISH THOSE GRAY HAIRS! Kill the Dandruff Germs—Stop Hair Falling

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR RESTORER a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

MISS E. A. ROSS, Sharon, Mercer Co., Pa.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

DASHED DOWN A MOUNTAIN IN AUTO

NEW YORK, July 21.—John A.
Clark, superintendent of the gas com-
pany and works controlled by the
New Jersey Public Service company,
is lying at the point of death at his
home in East Orange, N. J., as the
result of a thrilling automobile ac-
cident.

While crossing the Orange moun-
tains his car became unmanageable
and dashed down the mountainside.
Two hundred feet down the car
struck a deep gully and was
pitched over its steering wheel, fall-
ing 100 feet to the bottom of a
precipice. His fall was broken by trees
and shrubbery but he lost conscious-
ness. He regained consciousness af-
ter several hours and tried to crawl
to a nearby farm house. He fainted
at the gate and physicians were sum-
moned. Clark was later removed to
his home.

LA CROSSE RURAL CARRIERS' TRIED

Carrying Farmers' Mail in
This County is Not
Easiest Thing in
The World

Over at the postoffice they have
a map showing the rural free delivery
routes out of La Crosse.

La Crosse is represented in the
center of the map and heavy lines
indicate the daily paths of the rural
carriers.

Thanks to the institution of rural
free delivery, the farmer in La Crosse
county has his mail delivered just as
does the householder in the resi-
dence district of the city.

Each one of the rural carriers has
a long way to go every day in his
little wagon, but he makes it. The
settler can always count on getting
his mail every day if he but takes
the trouble to place a mail box by
the roadside.

Despite the fact that the country
around La Crosse is quite thickly
settled, the farmers are sometimes
far apart, making the routes longer
than those in more densely populated
agricultural districts, nevertheless
it is a cold day when the carrier does
not make a complete trip.

Dreads Slushy Days.
The round trip of the rural post-
men averages from twenty to twenty-
five miles, and in the slushy days
of the spring the trip is a hard one.
The rural carrier dreads spring as
he does a pestilence.

In the dead of the winter, when
the snow is crisp and cold, he can
go his rounds satisfactorily in a cut-
ter, but when the spring thaws come
some roads become well nigh im-
passable and carrier's job is no Sun-
day school picnic. His wagon sinks
deep in oozing ruts and it is a hard
matter for him to make his trip on
time.

Every carrier is supposed to make
a round trip and bring back the out-
going mail, collected from citizens
along his route, in time to be mailed
on the evening trains out of La
Crosse.

As a rule, he makes it all right,
but occasionally during the bad
weather the carriers do not get back
in time.

Just now, with the roads in good
shape and sunshine a general rule,
the rural carrier's task is a pleasant
one.

Are You in Doubt Where to Spend
Your Vacation

The Grand Trunk Railway System
(double track) offers the choice of
many delightful resorts via Canada,
New England and on Jersey Coast.
Special low round trip fares to many
of them. If you will advise how much
you have to spend for railroad fare,
a publication describing attractive
routes to the sections you can reach,
together with fares, will be sent you.

This nomination blank will count 1,000 votes if sent to The Tribune Contest Manager. Only the first blank received will count for votes. The Tribune reserves the right to reject any objectionable nominations.

Cut out this blank and send it to The Tribune, with your name or the name and address of your favorite candidate. The names of the people making nominations will not be divulged, if so requested.

HOW TO SECURE SPECIAL VOTES

Votes are secured in this contest by paying subscriptions to The Evening Tribune for arrears or in advance. Contestants are not restricted to getting subscriptions or votes in their own district, but may secure subscriptions in any part of the United States, and if cash accompanies the order, special votes will be issued.

Contestants in one district are not competing with contestants in the other districts, except for the Capital Prizes.

The division of districts, as shown on this page, so equalizes competition that every contestant has an equal chance to win the prize of her choice.

Besides the votes allowed on subscriptions, a coupon will be published in The Tribune every day during the life of the contest good for the number of votes printed thereon. These coupons must be neatly trimmed around the border, properly filled out and brought or mailed to The Contest Department of the Tribune before the expiration date printed thereon. Anyone may vote these coupons, regardless of subscriptions.

Votes cannot be bought. They can only be obtained by subscription or prepaying a subscription to The Tribune or by cutting them from the paper.

MILLIONAIRE BRADY ROAST AMERICANS

NEW YORK, July 21.—Wm. A. Brady, husband of Grace George, and millionaire theatrical producer, does not care at all for expatriated Americans who live in England and

"roast their native country." Brady declares the English themselves have just as little use for that class of Americans as he has. "Most of the American millionaires I met abroad were snobs," he says, "who get more snobbish with the millions they accumulate. They suck the blood out of Europe to get some-

thing they can't get here—the privilege of hobnobbing with a prince or a duke or something like that. "But the English don't think anything more of those fellows than we do. The English are very patriotic. They love England and think the sun and moon were made just to shine over their little country. And loving their country so much they have little use for an expatriated American who doesn't love America!"

ROOSEVELT HAS ENOUGH BIG GAME

(By Warrington Dawson, Staff Correspondent of the United Press.) IN CAMP WITH ROOSEVELT, SAGOSIA, B. E. A., July 21.—Col. Roosevelt has declared to me that he will do little more big game hunting in this section of Africa owing to the completeness of his collection of animals he has already bagged. There are, of course, a few smaller animals and birds he greatly desires to shoot and he will make especial effort to get them. Tomorrow Col. Roosevelt will leave his camp here and proceed to Naivasha from which place he will go on Saturday to Nairobi where he will remain until August 5. On that date he will start for Kenya.

A VALUABLE OLD GUN IS DISPLAYED

SEATTLE, Wash., July 21.—One of the most valuable old guns in the world is on exhibit in the historical display in the Forestry building of the Alaska-Yukon-Pacific exposition. The history of this gun is practically the history of the United States. It served under both Washington and Lincoln. It fought for this nation in the Revolutionary war and the war of 1812, and in a number of Indian wars.

The gun was carried by Nicholas

Manville at the opening of the Revolutionary war. After this owner was killed at the battle of Wyoming Valley, it became the property of his son, who served as a drummer boy under General Washington until the close of the Revolutionary war.

The next of the Manvilles carried the gun in the war of 1812, participating in many of the largest battles. Ira Manville was the next descendant who came in possession of the already famous relic. He enlisted in the Black Hawk Indian war and carried with him the old family gun. In this war he met Captain Lincoln, who commanded a small squad of volunteers.

The next son, George W. Manville, brought the gun to the state of Washington in the early fifties. He enlisted in the Rogue River Indian war and the old muzzle loader still continued in action. Mr. Manville, who lives at South Tacoma, was one of the first settlers in the west. He built the Stellacoom jail in 1853.

LATE LOCALS

Born, to Mr. and Mrs. S. Morikubo, a son.
A marriage license was issued Monday by Deputy County Clerk Miss Nora Nelson to Alfred Evjen and Miss Anna Liebakken, both of Holmen.

Peter Karlstadt has transferred to Mathias Pallvada lot 10, block 4, of Loomis and Harvey's addition to the city of La Crosse. The purchase price was \$350.

Albert Young, the father of four children was arrested and brought into county court yesterday afternoon on a charge of non-support preferred by his wife. In view of the fact that the family would suffer should be locked up, the court was lenient with him, and continued the case for thirty days, during which time he will be given another chance. He promised to give his wife \$5 weekly during this time.

S. N. Smith of Sparta is in La Crosse today visiting friends.
Rev. R. Anderson and son Harold are visiting at Ferryville, Wis.
Mr. and Mrs. Dilg of Chicago, who have spending several days in this city and fishing at Minnetonka, passed through La Crosse yesterday on their return trip to Chicago. Mr. Dilg is an advertising expert who has charge of all of the newspaper and magazine advertising of the Anheuser-Busch Brewing company, the John G. Duffy Brewing company, Duffy's Malt Whiskey and other big industries.
J. C. Bracher and J. Ole Storey have returned from Chicago where they have been business visitors for a few days.

J. W. Tibbitts of Sioux City, Ia. is the guest of friends here for a few days.

Ray E. Hiscok has left for a business trip through Minnesota. He will return Friday.

CITIZENS IN MEETING

ASK COPS' DISCHARGE
MILWAUKEE, Wis., July 21.—Application to the fire and police commission for the dishonorable discharge of Joseph Adolph Solverson and Joseph M. Getz because of alleged cruelty to Polish citizens which have been arrested by them, will be made as a result of the mass meeting in Pulaski hall, last night, which was attended by about 200 Polish residents of the south side.

It was charged that Solverson had assaulted a woman on no provocation as she sat in her yard peeling potatoes and that Getz had broken a man's ribs and injured his skull while arresting him on a charge of drunkenness.

FOREIGN MARKETS

New York Stocks.

NEW YORK, July 21.—After initial fractional advances the stock market continued strong for most of the session but one or two of the leaders shaded the very best figures. The feature was the new high record at 195 for Union Pacific. Amalgamated Copper and Smelting showed fractional gains. Reading and Steel common appeared to be held in check. New York Central was 3-4 above yesterday's final, but at the end of the first fifteen minutes the market sold off 1-8 to 1-4 from the earlier higher prices, but a strong undertone was apparent with a rising tendency in Pennsylvania.

At 11 a. m.—At the end of the first hour the market developed a reactionary movement in a number of issues. Around 195 a good deal of stock was met in Union Pacific. A new high record was made later, the stock selling at 195½. In some issues there was excellent buying, especially Rock Island. Steel common sold off 1-4 and this had a good deal to do with the reaction in the general market.

At 11:30 the market was erratic with gains and losses in various issues. Union Pacific was off ¾ from the highest.

Government bonds unchanged; others firm.

S.S.S. PURIFIES BAD BLOOD

Bad blood is responsible for most of our ailments, and when from any cause it becomes infected with impurities, humors or poisons, trouble in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores and ulcers, which break out on the flesh, often from a very insignificant bruise, or even scratch or abrasion. If the blood was healthy the place would heal at once; but being infected with impurities which are discharged into the wound, irritation and inflammation are set up, the fibres and tissues are broken, and the sore continues until the blood is purified of the cause. S.S.S. is Nature's blood-purifier and tonic, made entirely from roots, herbs and barks. It goes down into the circulation and removes every particle of impurity, humor or poison, restores lost vitality, and steadily tones up the entire system. S.S.S. neutralizes any excess of acid in the blood, making it pure, fresh and healthy, and permanently cures Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin eruptions or diseases. Book on the blood and any medical advice free.

SUFFERING AT SEA TEN DAYS NO FOOD

Nine Men Survive and One Dies on Desert Island—Dynamite and Fire Destroys Ship

SAN FRANCISCO, July 21.—Emaciated and weak, almost to helplessness, eight men and Capt. Burke, of the schooner Chas. Hanson, were brought in today on the Pacific Mail steamer Newport with a tale of terrible sufferings during ten days without food on a desert island off the coast of Mexico. Harry Nordyke had starved to death on the island. The Hanson caught fire about two weeks out from San Francisco. Her cargo was dynamite. The fire, originating in the galley amidships, worked over the whole ship within a few minutes. The crew dashed for the life boats, not stopping for oars, food, water or clothing. They had not gone far from the vessel when the fire struck the cargo and the schooner was blown to bits. The life boat containing four of the men was forced by the shock and all were compelled to take refuge in a single boat.

CABINET IS MEETING TO FEAST TONIGHT

WASHINGTON, D. C., July 21.—President Taft called the members of his cabinet together today for a special meeting. It is understood that the matter discussed was the matter of public expenditures.

The president will have all of the tariff conferees at dinner tonight at the White house. It is expected to be a love feast at which the rough edges which have developed between house and senate over various schedules and rates will be smoothed off and a better understanding will be reached.

FREEPORT CLUB IS DEAD BROKE

FREEPORT, Ill., July 21.—With salaries amounting to \$1,200 due and but a few hundred in the treasury the Freeport Baseball association probably will be forced to give up within the next few days. President Moll of the Wisconsin-Illinois league has been wired for and will arrive today.

TWO MEN HURLED 650 FEET TO DEATH

MURDERER CONFESSES

ABERDEEN, S. D., July 21.—Emil Victor, arrested on suspicion of having murdered John Christie, his wife and daughter and Michael Royanane, a farm hand, has made a confession admitting the crimes and giving the details of his butchery.

BAD FOR MILLER

WASEKA, Ill., July 21.—At today's session of the special grand jury summoned to investigate the killing of John B. Saylor, the Crescent City banker, the testimony tended to disprove the statement of Miller that he had shot Saylor when the latter attacked him with an axe. Witnesses today told the grand jury when they reached the Saylor house a few minutes after the tragedy there was no one in sight, though Miller pointed it out to the coroner when he reached the house.

BIG DOERFLINGER PICNIC ON TODAY

Annual Outing of Employees Held in Pettibone Park and Is Successful in Every Way

Today is the big day. Headed by Kreutz's full military band, the employees of the Doerflinger Park Store, in holiday attire and bearing heavy baskets laden with good things, marched down Main street today enroute to Pettibone park, where the annual picnic of the Park Store Benefit association is being held this afternoon.

There are hundreds of merry, mischievous, frolicsome girls and just as many merry-makers of the opposite sex, all having the time of their lives. While the band is playing festive music, the employees of the store and their invited guests are making merry in every way known to young people.

A program of events arranged by the committee is being carried out which is positively the best ever put up. Many of the events are new and some of them decidedly original.

At 3 o'clock the baseball game between the "Has Beens" and "Would Bes" was called, and the fans are assembling at the time of going to press for what promises to be better than a league exhibition. The girls' three-legged race was also a feature of the early afternoon.

At 4:30 the girls will show what they can do in the way of ball playing. Betting is about even on the "Daisies" and the "Sunflowers."

The afternoon's program is as follows:

Program.
Egg race—The girls, 2 p. m.
Three-legged race—The girls, 2:30 p. m.
Tug-o-war—The boys, 2:30 p. m.
Swimming contest—The Toilets, 2:45 p. m.
Baseball—Has Beens vs. Would Bes, 3 p. m.
Baseball—Our girls, Daisies vs. Sunflowers, 4:30 p. m.
Tug-o-war—By our girls, 5:15.
Pie eating contest—By Push-Pull, Shove and Lift, 5:30 p. m.
Pole pulling contest—The strong men, 5:45 p. m.
Pole pulling contest—The heavy girls, 6:15 p. m.
Eating contest by entire company. Distribution of prizes.

SUTTON SAID HE WOULD SUICIDE

(Continued from page 1.)

from him after the last shot was fired. But the Sutton family wants to know where his Smith & Wesson was at that time. That he was armed with two revolvers before the shooting began has been definitely established. There were three empty cartridges and three unexploded ones in the Coits revolver when, as Lieutenant Bevan testified, Lieutenant Willing took it from Sutton. Adams testified that there were five shots fired. The Smith & Wesson revolver was found next morning in the grass near the scene of the tragedy where Dehart had thrown it. Dehart testified at the previous inquiry that he did not know who had handed him this revolver.

Bevan Contradicts Adams

William S. Bevan, officer of the guard the night of the murder, last night contradicted Lieut. Adams' statement that Sutton was alone when he fired the shot. Bevan declared that Lieut. Uley was sitting on Sutton's legs. Uley was sitting on Sutton's shoulders. He said Adams wanted to kick Sutton, but was prevented from doing so.

Mrs. Parker moved her seat at the opening of the morning session so as to face Bevan directly, and she subjected him to the ordeal of her steady, unrelenting gaze, the entire time he was on the stand. The witness declared that any of the officers who engaged in the fight with Sutton might have worn a revolver without Bevan himself knowing it.

Was Defending Himself

Judge Advocate Leonard has asked this question of all the witnesses. The others said no officer beside Sutton had a revolver. Another surprise came when Major Leonard asked about Sutton's actions when Bevan said he was pointing his gun at Roelker in front of Sutton's tent. Bevan said: "Sutton's action was more offensive than aggressive. He was apparently defending himself."

"Are you sure Lieut. Sutton killed himself?" asked Leonard.

"I am absolutely certain that the shot that ended Lieut. Sutton's life was fired from a revolver in his own hands," was the reply.

Bevan testified that one night from two to six months prior to the shooting he drank a cup of coffee in Sutton's tent and had a long talk with him.

"Sutton told me then," said the witness, "that he did not attract him and some day he would shoot himself."

Describing Sutton's position at the time of the shooting, Bevan said: "His face was flat on the ground. I don't know whether he knew Uley and myself were there."

"Was he still or struggling before the shot?" was asked.

"He lay quietly, face downward."

"State exactly what you heard Sutton say after Uley ordered him under arrest."

"He said: 'Damn the arrest. I am going to get my mess jacket and leave this reservation.'"

"TYPHOID MARY" HAS OFFER OF MARRIAGE

NEW YORK, July 21.—Stipulating only that "Typhoid Mary" Mallon, held under quarantine, must be a good cook and disregarding the verdict of numerous physicians that the woman is a "living culture of typhoid bacilli," a Lansing, Mich., man writes that he would like to marry Mary. The letter was received by Health Commissioner Darlington.

The man, whose name is withheld, writes that as he lives on a large farm there will be no danger of Mary transmitting typhoid to any one in the neighborhood. He encloses a lengthy list of references and warns Dr. Darlington not to let the federal health officials know that Miss Mallon contemplates the trip, as they might try to stop it. The correspondent evidently has no doubt that Miss Mallon would be glad to marry him. One thing, he says, that he must make known is that he has been insane, but has fully recovered. Dr. Darlington says he thinks he will be unable to accommodate his correspondent as Miss Mallon does not yet appear to be free from bacilli.

FLYING MACHINE WRIGHTS BIG TEST

WASHINGTON, July 21.—With his aeroplane perfectly "tuned up" and the bearings of the motor thoroughly polished off by reason of the tests of the past week, culminating in his last night's record-breaking flight of one hour, twenty minutes and forty-five seconds, Orville Wright is today preparing for the official trials, including an endurance flight of one hour and a speed flight of ten miles along a straightaway course of five miles and return, and it is possible that he may attempt the endurance test this afternoon.

In the test yesterday the machine traveled as far as from Washington to Baltimore, equivalent to flying across the British channel and back again without stopping.

CLOUD OVER EUROPE.

CONSTANTINOPLE, July 21.—The struggle of Hilmi Pasha to maintain his power as grand vizier, threatens to precipitate the greatest European complications. It has been learned on the highest authority that Hilmi Pasha is placing his power at stake on the possibility of obtaining the support of Germany for Turkey against Russia and England in the Persian situation.

SOLDIER KILLS WIFE

MORELIA, Mex., July 21.—Because his wife from whom he was separated refused to return to him, Sergeant Melquiades Saens of the Fifth Infantry ran her through with his sword and then slew his infant child and the mother and sister of his young wife.

WINS HER HEART.

Food that Helps Baby and the Family Pleases Mother.

Show a mother how to feed her baby so that it will be healthy, rosy and plump and grow up strong and sturdy and the mother's gratitude is everlasting. A mother says: "Five weeks ago I weaned baby but could not get her to take any kind of food until I tried Grape-Nuts which she relished from the first, and on it she has plumped up and blossomed into a fat, chubby little girl."

"I feed Grape-Nuts to her regularly—use three packages a week for baby and my three-year-old boy alone, and I find that it regulates and keeps them nourished, strong and in good health all the time."

"Since feeding my children on Grape-Nuts I have used absolutely no medicine for either of them. Such food as this that does such wonders wins its way to a mother's heart. Please accept our thanks for the good your food has done in our family where we all eat it."

Children will grow up strong and healthy, or weak and puny according to the food they get.

Grape-Nuts is a complete and perfect food for adults and children, is made on scientific lines and this is easily proved by trial.

STEEL CAR STRIKE NOT YET ENDED

BUTLER, Pa., July 21.—Notwithstanding the agreement reached last night not more than one-fourth of the foreigners returned to work at the Standard Steel Car company this morning. The men declare they have received no definite promise of increased wages.

Troops Called Out.

NEW CASTLE, Pa., July 21.—Following the riots in the tin mill strike yesterday, in which Wm. Ablett, a strike breaker, received fatal injuries, Sheriff Waddington has telegraphed Governor Stuart for the assistance of the state constabulary.

To Continue Strike.

PITTSBURGH, Pa., July 21.—With an immense display of enthusiasm the striking workmen of the Pressed Steel Car company at McKees Rocks voted today to continue the strike indefinitely.

NEW AIRSHIP FLIES NO GAS OR MOTOR

WEST BRANDYVINE, Pa., July 21.—Dr. Geo. A. Spratt, physician, farmer and inventor, says he has conquered the air with a flying machine which will operate without either gas bag or motor. Spratt has been working for years on a model and says: "In my trial flight I attained something no air navigator has ever been able to do—that is, to navigate a plane in the air with absolute stability and without the aid of a motor. I covered about 300 feet at the height of 600 feet from the ground, but as that is as high as I desired to ascend at the time, I descended. Even at that height I found that I had in the machine the valuable gliding stability for which we have been working for a decade."

MISS GINGLES WILL START A LACE STORE

CHICAGO, July 21.—Ella Gingles, the Irish lace girl who has been figuring in a sensational case here resulting from a charge of larceny brought against her, but who was acquitted by a jury, will open a lace store here. Today the club women who befriended her during the trial are searching the city for a suitable location and enough money will be raised to open the store.

Miss Gingles says she can live down all the scandal attending the recent trial. She says she is not afraid of the future.

Nearly \$1,500 is on hand and many more hundreds, it is said, will be given to the girl by local society and club women. Several Irish organizations will give benefit entertainments for her.

FRENCH BOYS WANT TO FIGHT INDIANS

PARIS, July 21.—Eugene Vleury, 13, and Ernest Saput, 12, both gamins of the Paris boulevards, have been arrested at Cherbourg and sent back to their parents here for a little woodshed treatment. They had started for America to fight the Indians. Both lads had revolvers and dirks to say nothing of a complete set of what they thought would be fine burglar tools. If making the redskins bite the dust did not prove a profitable enterprise, they could turn "Raffles" and have just as good a time. Caput was dispossessed of a roll of 207 francs.

MOORS IN SPAIN

MADRID, July 21.—King Alfonso is so perturbed by the serious position in which the Spanish army now fighting the Moors finds itself that he has cabled King Edward of England that he will hardly be able to make his contemplated visit to England. He has personally ordered 40,000 seasoned troops prepared for instant field service.

SEVER DIPLOMATIC RELATIONS TODAY

RIO DE JANEIRO, Brazil, July 21.—The war cloud which threatens to involve four nations, Argentina, Peru, Bolivia and Chili, grew today when diplomatic relations between Argentina and Bolivia were broken off and the ministers of each of these countries were dismissed from the other. Ownership of the rich Acre country is the cause.

IS JUDSON HARMON CHOICE OF DEMOCRATS

By the Court,
JOHN BRINDLEY,
County Judge.

Dated this 21st day of July, 1909.
MORRIS & HARTWELL,
Attorneys for Administrator.

CARD OF THANKS.
We take this means of thanking those friends and neighbors, and the pastors of St. Wenceslaus and St. Mary's churches, who gave us comfort and assistance following the deaths of our beloved sons, George Lapitz and Joseph Bezpaletz. Joseph F. Lapitz and Family.
Martin J. Bezpaletz and Family.

COLUMBUS, O., July 20.—Congressman W. A. Ashbrook of the Seventh Ohio district, while on a hurry-up trip home during the tariff debate on the tariff schedules, applauded a well organized boom for Judson Harmon, democratic nominee for president in 1912.

MCGREGOR, IOWA.
Tony Geronima furnished the music for the dance at Schuit's Saturday night. While out attending to his duties as road supervisor Frank Schuster was taken suddenly ill and was taken to the hospital at Dubuque, where he underwent an operation for appendicitis.

EYES EXAMINED: GLASSES FURNISHED

A thorough and careful examination made of the eyes, without the use of drugs or medicines in the eyes. Glasses of all kinds at moderate prices. Broken lenses replaced.

W. T. IRVINE, Optician.

GRADUATE NORTHERN ILLINOIS COLLEGE OF OPHTHALMOLOGY AND OCTOLOGY, Class of 1898.

La Crosse, Wis., Sept. 2, 1902.

Before being fitted by you with glasses, I was troubled with blind spells, which my physician thought were caused by heart trouble. I was also very nervous and could not sleep, but after having used your glasses for about one month, these blind spells and headaches passed away. I also sleep soundly at night and feel and appear a great deal better. Thanks for your skill and kindness in curing me of these troubles.

Very truly,
MRS. E. B. H.
